The removal process will take 4-5 days. Sheriff Stassi will transport 110 inmates to LaSalle Parish's private prison during this time frame. Councilman Reeves asked what the Parish will do with the new inmates during this time. Sheriff Stassi answered they will work with West Baton Rouge, and will work with the District Attorney's Office and the Judges to arrange new court dates for bench warrants.

RESOLUTION IPC# 2016-003

RESOLUTION TO REINSTATE AN IBERVILLE MISSISSIPPI BRIDGE CROSSING INTO THE FINAL TIER 1 ENVIRONMENTAL IMPACT STATEMENT FOR THE BATON ROUGE LOOP PROJECT

The following resolution was introduced by Councilman Kelley, seconded by the Council.

WHEREAS, the Capital Area Expressway Authority, with the Federal Highway Administration acting as Lead Federal Agency, and the Louisiana Department of Transportation and Development is proposing the development of the Baton Rouge Loop toll facility.

WHEREAS, a Tier 1 Final Environmental Impact Statement/Section 4(f) and 6(f) Evaluation (FEIS) for the proposed project evaluated multiple corridors in the South Unit within three preferred Mississippi River crossing corridors, including the Plaquemine Crossing in Corridor Section S12.

WHEREAS, the FEIS recommends elimination of fourteen alternatives, including all alternatives in the Plaquemine Crossing due to “low traffic volumes and additional 10-15 miles of roadway”, characterizing the Section as “not feasible from a traffic and tolling perspective”.

WHEREAS, an independent study performed by the Capital Region Industry for Sustainable Infrastructure, or CRISIS, indicated the potential for a Plaquemine Crossing.

WHEREAS, CRISIS found that a project which includes a widening of LA 30 on the east bank of the river and terminating at I-10 west of LA 415 which crosses in the Plaquemine Crossing outperforms bridges which cross in the corridors in West Baton Rouge Parish in terms of savings in regional vehicle hours traveled, the key metric in that study report.

WHEREAS, the population of Iberville Parish has been stagnant for nearly 50 years, despite being part of a fast growing metropolitan area.

WHEREAS, the lack of population growth can be partially attributable to the lack of mobility, connectivity, and traffic congestion experienced in the region.

WHEREAS, the location of Iberville Parish, in the deep draft portion of the Mississippi River, is conducive to industrial growth which would spur the economy and population growth in the parish.

WHEREAS, the lack of efficient intermodal connectivity by highway puts Iberville Parish at a disadvantage to other parishes in the region in attracting industry.

WHEREAS, every parish in the deep draft portion of the Mississippi River has a bridge which crosses the river, except for Iberville Parish.

WHEREAS, the Iberville Parish Council believes that the FEIS’s justification that the Plaquemine Crossing corridors are infeasible based on traffic and tolling is an overstatement and mischaracterizes the actual comparison of the crossing in the report.

WHEREAS, the Iberville Parish Council disagrees, based on documentation in the FEIS, that the statement “some public officials and political bodies from Ascension and Iberville parishes have publicly opposed the project for various reasons” also mischaracterizes the opinions of those entities in this Parish.

THEREFORE, BE IT RESOLVED that the Iberville Parish Council strongly supports a Mississippi River Bridge crossing in Iberville Parish and strongly requests that alternatives utilizing the Plaquemine Crossing be reinstated into the Study as a part of the Record of Decision on the Tier 1 FEIS so that it can be further considered in the Tier 2 Environmental Impact Statement.

The above resolution was duly adopted in regular session this 16th day of February, 2016 by the following vote on roll call;

YEAS: Taylor, Ourso, Dominique, Reeves, Lewis, Arnold, Markins, Bradford, Kelley, Vallet, Morgan.

NAYS: None.

ABSTAIN: None.

ABSENT: Jackson.
