Once construction of Blanchard's Lumberyard began Mr. Migliacio went back there to clean the culverts and they were blocked with gravel and some of the buildings were located on top of the culverts. The Parish hired Fort and Tablada to survey and study the area. Mr. Migliacio changed the culverts from 15 inches to 30 inches, and sent the water down into the catch basin. The Parish improved the drainage with these changes, with the limited options they had. He looks at the culvert every day when he comes through town. Mr. Migliacio said Mr. Lyons admitted that he has put trash and debris into the ditch. The prison crew has cleaned this ditch about 30 times, and the most recent time they went to clean, Mr. Lyons ran off the prisoners.
